 Name _____ Date _____

Weekly allowance budget: save, spend, share

For the student: when money comes in, split it into three jars before you spend. Fill in one row each week. Color the pictures when you finish.

My plan: out of every $10, I put $____ in Save, $____ in Spend and $____ in Share.

Week	Money in	Save	Spend	Share	What I bought, saved for or gave
1					
2					
3					
4					
Total					

Practice

1. Maya gets $10 a week. She puts half in Save. How much is that? _____
2. Maya puts $1 in Share and the rest in Spend. How much goes in Spend? _____
3. How much is in Maya's Save jar after 4 weeks? _____
4. Leo gets $8 a week. He saves $3 and shares $1. How much can he spend? _____
5. Leo wants a $15 book, paid from his Spend jar only. How many weeks must he wait? _____

Answer key: weekly allowance budget

Practice

1. Maya gets $10 a week. She puts half in Save. How much is that?

$5

2. Maya puts $1 in Share and the rest in Spend. How much goes in Spend?

$4

3. How much is in Maya's Save jar after 4 weeks?

$20

4. Leo gets $8 a week. He saves $3 and shares $1. How much can he spend?

$4

5. Leo wants a $15 book, paid from his Spend jar only. How many weeks must he wait?

4 weeks ($16 after 4 weeks; $12 after 3 is not enough)
