Name _____ Date _____

Name the coins and bills

For the student: look at each coin. Write its letter next to its name and value. Then write how many dollars each bill is worth. Color the pictures when you finish.

Part 1: coins

A

B

C

D

Coin	Value	Letter
penny	1¢	
nickel	5¢	
dime	10¢	
quarter	25¢	

Part 2: bills

$ _____ **dollars** **$** _____ **dollars** **$** _____ **dollars** **$** _____ **dollars**

Part 3: think about it

1. Which coin is the smallest? _____

2. Which coin is worth the most? _____

3. Which coin is a copper color? _____

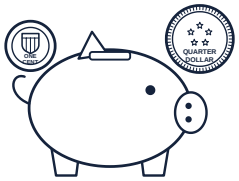

4. How many pennies make one nickel? _____

Coins are drawn to scale with each other: the dime is the smallest coin even though it is worth more than the penny and the nickel. The dime and the quarter have ridges on the edge. Drawings are simplified and are not real money.
